The benefits of training

TRAINING

OBJECTIVES

At the end of their training, lift maintenance operatives will be able to:

- carry out various preventive or corrective maintenance operations aimed at ensuring the upkeep and smooth running of a fleet of lifts and their breakdown in the event of an alert, fault or breakdown.
- intervene as part of a maintenance contract mainly on lifts, and sometimes on escalators, moving walkways (horizontal or on inclined planes known as "travelators"), goods lifts, stairlift seats, dumbwaiters, or vertical platforms.
- carry out work both on components and their associated programming, and on mechanical, hydraulic, IT and EEEA-related assemblies (electricity, electronics, electrical engineering, automation).
- adapt to the constraints, specific safety rules and authorisations associated with work sites and assess the risks: prepare and organise your work rigorously, adapt it to customers and users and choose specific protective equipment .

PROGRAMME

Skill block 1

- Prepare and organise a maintenance operation
- Carry out an environmental and personal safety operation

Skill block 2

- Check and/or replace a lift subassembly
- Adjust and parameterise a lift subassembly

Skill block 3

- Pre-diagnose a fault on a lift
- Troubleshoot an elevator

Skill block 4

- Inform and advise the customer
- Communicate within a team

By the end of the training, the professional will have obtained all the specific authorisations enabling him/her to: work on installations, handle electrical equipment or handling equipment, and/or work at height (work in an electrical cabinet or switchboard, handle a lifting device, work on scaffolding, etc...).

VALIDATION

- Certificate of professional qualification (CQP)
- + d'informations sur cette certification (RNCP36922, libellé exact du diplôme, nom du certificateur, date d'enregistrement de la certification) en cliquant sur :
<https://www.francecompetences.fr/recherche/rncp/36922/>
